

Please read the following advice carefully and sign at the end.

Microblading/PMU procedure normally require multiple treatment sessions. For best results, clients will be required to return for at least one re-touch appointment. This will take place between 4-6 weeks after the initial procedure.

- Please be prepared that colour intensity will be significantly darker and sharper immediately after the procedure. This will reduce by 30%-50%

- Although numbing cream is used during the procedure, slight sensitivity/ discomfort can be still felt by sensitive clients.

- Delicate or sensitive skin may be red and/ or swollen after the procedure.

- Please wear your normal make-up to the salon on the day of your procedure.

- Please do not drink alcohol the night before treatment.

- Where possible, try to avoid the following herbs and spices running up to your appointment: Black pepper (*Piper nigrum*), Cardamom (*Elettaria cardamomum*), a member of the Zingiberaceae (Ginger), Cayenne (*Capsicum frutescens*) Cinnamon (*Cinnamomum cassia*), Garlic (*Allium sativum*), Ginger (*Zingiber officinale*), Horseradish (*Armoracia lapathifolia*), Mustard

- A patch test will be performed, unless waived upon request.

- Any brow shaping using waxing should be performed at least 48hrs before the treatment.

- Electrolysis treatment should be undergone no less than 5 days before the treatment.

- AHA preparations should be undergone no less than 2 weeks before the treatment.

- Chemical, laser peel retain A should not be performed 6 weeks before the procedure.

- If you are having manual lips procedure and have suffered from herpes before, it is advised to take antiviral medicine at least a week prior to the treatment.

Topical anesthetic advice

Allergic reaction: can occur from any anesthetics using during procedure. If you do suffer from an allergic reaction, you should contact your doctor immediately. Allergic reaction response may show through redness, swelling, rash, blistering, dryness or any other symptoms associated with an allergic reaction.

Numbness: We cannot accept responsibility if the area to be treated does not respond to the numbing cream. Each individual is different according to skin type. Some clients report the area to be completely numb, while others may experience some discomfort.

Procedure: For microblading/PMU procedure a numbing cream/gel is used. The products are formulated to be perfectly safe and can be purchased over the counter from any pharmacy/chemist. The anesthetic is placed over the treatment area for 20-30 minutes then carefully removed prior to treatment. As a result of the treatment, combined with the use of the anesthetic you can expect to experience some redness/ swelling that can last 1 - 4 days. You should always follow your post procedure advice/ after care for the best results.

I have read and fully understood the above information provided and any risks involved with the use of topical anesthetic and I therefore consent to the use of the anesthetic for the microblading PMU procedure.

I agree to follow pre-procedure advice closely

List any medications you have been taking in the past 6 months:

Have you received chemotherapy or radiation in the past year?

Have you ever had an allergic reaction to one of the following? Lanolin Latex rubber Vaseline Medication
 Metals Hair Dyes Foods Lidocaine Paints Crayons Glycerine

Other allergies:

Have you ever had one of the following? Retain A within last 2 weeks Anaemia sensitivity to cosmetics Prolonged bleeding
 Trichotilomania Low Blood Pressure Artificial Heart Valves Diabetes Haemophilia Fainting spells or dizziness
 High blood pressure Liver disease Circulatory Problems Epilepsy Tumours, growths or cysts Herpes
 Thyroid disturbances HIV Hair loss Hepatitis Cancer Chemical or laser peel within 6 weeks Alopecia
 AHA preparations in the last 2 weeks Fat injections, Botox injections, Collagen injections Hypertrophic scars Keloid Scars
 Healing problems Do you scar easily? Do you bruise or bleed easily? Are you currently pregnant or nursing?

What are the main concerns relating area to be treated ?

What would you like to improve?

FOR THERAPIST USE:
 Note pigments, blades, techniques to be used for this client

Please read the following statements carefully: Microblading/PMU is a way of cosmetic tattooing. Re-touch procedures may be required. A healing period of 4 weeks is required before a touch up procedure can be performed. On a rare occasion, the pigment may migrate under the skin. Procedure of microblading/PMU may be slightly uncomfortable. The pigments will fade. Immediately after the procedure, the pigment can appear 30-50% darker than the desired result. Although extremely rare, there might be an immediate or delayed allergic reaction to pigment. A negative patch test result does not guarantee that you will not develop an allergic reaction after the full procedure. Allergic reactions to anaesthetic can occur. Permanent cosmetics cannot be applied to pregnant women or nursing mothers. Permanent cosmetics cannot be applied to any person under the age of 18. Infections can occur if aftercare instructions are not followed correctly. There may be swelling and redness following the procedure. You may experience minor bleeding. If you have an MRI scan within 3 months after microblading procedure, you should notify/ discuss

I have received an after care leaflet and I'm fully aware of the after care procedures.

**I have fully understood the information provided above.
 I can confirm that all of the information provided by me, is correct and truthful.**

Please continue to general consent and procedure permit form on reverse

Please read this form fully and sign at the end. If you are unsure about a particular detail of the form, please speak to your therapist.

If unforeseen condition arises in the course of microblading/PMU procedure, I authorise my therapist to use their professional judgement to decide on what he/she feels necessary in the given circumstances.

I accept the responsibility for determining the colour, shape and position of the microblading/PMU procedure as agreed during consultation.

I understand that an allergy test, does not guarantee that I will not develop an allergic reaction to the pigment.

I fully understand and accept that non-toxic pigments are used during the procedure and that the result achieved may fade over a period of 1-3 years. Even once the colour will fade, pigment itself may stay in the skin indefinitely.

I have been informed that highest standards of hygiene are met and that sterile, disposable needles and pigment containers are used for each individual client, procedure and visit.

I understand and accept that each procedure is a process requiring multiple applications of pigment to achieve desired results, and that 100% success cannot be guaranteed during the first procedure. I understand that I may have to return for a repeated procedure.

The result of the procedure is determined by the following; medication, skin characteristics (dry, oily, sun-damaged, thick or thin skin type), Personal pH balance of your skin, alcohol intake and smoking, post procedure after care.

Upon completion of the procedure there might be swelling and redness of the skin, which will subside between 1-4 days. In some cases bruising may occur. You may resume your normal activities following the procedure, however, using cosmetics, excessive perspiration and exposure of the sun should be limited until the skin has fully healed. Please see after care card for more details. You can be assured that the procedure results will look acceptable for you to appear in public without additional make-up on the affected area.

I have been advised that the true colour will be seen 1 month after each procedure, and that the pigment may vary according to skin tones, skin type, age and skin condition. I understand that some skin types accept pigment more readily and no guarantee on exact colour can be given.

To my knowledge I do not have any physical, mental, or medical impairment or disability that might affect my well being as a direct or indirect result of my decision to have the procedure done at this time.

I agree to follow all pre-procedure and post-procedure instructions as provided and explained to me by the technician.

I can confirm that I have received a copy of after care details.

Being of sound mind and body, I hereby release any and all responsibility. I accept any and all responsibility myself for any consequences that might stem from my decision to have any permanent cosmetics procedure performed by (technician).

(Therapist's full name)

For the purpose of documentation, record and use in portfolio, also consent to the taking of "before" and "after" photographs of my procedure.

I CERTIFY THAT I HAVE READ AND FULLY UNDERSTAND THE ABOVE CONSENT AND PROCEDURE PERMIT; THAT THE EXPLANATIONS THEREIN REFERRED TO WERE MADE AND ACCEPT FULL RESPONSIBILITY FOR THESE AND OR OTHER COMPLICATIONS WHICH MAY ARISE OR RESULT DURING OR FOLLOWING THE MICROBLADING/PMU PROCEDURE. THE TREATMENT IS PERFORMED AT MY REQUEST ACCORDING TO THIS CONSENT, PRE-PROCEDURE FORM AND POST PROCEDURE GUIDELINES. I HERBY AUTHORISE TECHNICIAN
